Re: SEAA 2102 – Deadline Extended to January 1, 2019

Gentlemen:

Reference is made to Mr. Savage's letter of March 28, 2018. The Division is agreeable to Mr. Savage's request for an extension of the May 1 deadline imposed with SEAA 2102.

This letter documents the extension and permission to divert water until January 1, 2019. Extension is granted with understanding Junction Irrigation Co will be "drying the canal up around the first of October, constructing the Head Gate and Measuring Device along with an open ditch to the Sevier River. anticipating completion of the Head Gate and Measuring Device near the mid to end of December 2018".

Please keep us informed of your construction schedule so that we may inspect, approve and close this agency action prior to the January 1 deadline. Should you have any questions please call me at (801) 538-7431. Thank you in advance for your efforts.

Regards,

Sue Odekirk, P.E.

Sevier River Distribution Engineer
